

EQUITY AND TRAUMA-INFORMED TOOLS

for helping families through COVID-19.

The COVID-19 pandemic has magnified deeply entrenched health and social inequities that exist between populations in Canada. This is why our pandemic preparedness, response, and recovery actions need to prioritize health equity and trauma-informed care. The Child Welfare League of Canada in association with the Canadian Consortium on Child & Youth Trauma has compiled the following list of equity-based and trauma-informed resources highlighting effective, equitable and inclusive responses to the COVID-19 pandemic.
